New Oven-Baked Grain-Free Dog Treats From Sojourner Farms

Minneapolis, MN - Sept 1, 2007

Sojourner Farms Natural Pet Food Company announces the debut of their newest line of dog treats, Sojos Grain-Free Dog Treats. A truly original treat, bone-shaped snacks are oven-baked and 100% grain-free. Inspiration came from the success of the company's grain-free dog food mix, Europa, as well as the belief that even dogs with allergies deserve a crunchy snack once in a while. Using only simple, honest ingredients, Sojos Grain-Free Dog Treats come in two varieties – Cherry Almond and Lamb & Sweet Potato. Nothing artificial, no sugar, no chemicals, no by-products, and, of course, no grains.

"We are thrilled to offer such a unique product; a treat that is grain-free and oven-baked," explains Maggie Johnson, Director of Marketing. "Finding the right balance of ingredients was no easy feat, because the cookie dough has to be made using only natural, grain-free ingredients. But we have our own bakery (and staff dogs) on-site, so we were able to invest as much time as we needed in order to come up with just the right mix."

Sojourner Farms is committed to the health and well-being of companion animals everywhere. For more information on their other lines of gourmet dog treats and pet food mixes for a homemade diet, please contact Sojourner Farms at www.sojos.com or (888) 867-6567.
